

Okvirna agenda: Tri dnevni seminar za visoko usposobljene in izkušene kadre s področja tlačnega litja
Lokacija: Bühler Uzwil, Švica
Čas seminarja: 04. – 06.11.2025

Day	Morning	Afternoon	Evening
Tuesday	-Introduction -Squeeze Casting technology	-Squeeze Casting technology -Preparation of suitable aluminium alloys	Dinner
Wednesday	-Thermal balance of diecasting tool during cycle time optimization -Cycle time calculation – what would be the minimum or how to calculate it -Thermal deformation	-Plant tour -Part distortion during ejection from the die -Cracking of parts due to internal stresses	Dinner
Thursday	-Cracking of parts due to internal stresses	-Plant tour
